STATIC STORY (INSTAGRAM)

Planting design tips

- 1 Try massing plants, rather than having one for everything.
- 2 Mix plant textures.
- 3 When choosing colors, limit your choices by picking a theme.
- 4 Layer your plants, why not have two, three, or even five rows.
- 4 If you have a long border to fill, create a pattern with your plants.

A photograph of a small, vibrant green plant in a blue and white patterned, cylindrical magnetic hydroponic planter. The planter is hanging from a metal handle on a grey refrigerator door. The background is a brick wall.

Magnetic Hydroponic Blue planter
Hang your plants effortlessly

A photograph of a red resin yoga planter, which is a small, stylized human figure in a yoga pose, holding a small white cup. It is placed on a white shelf next to other plants and planters.

Decorate your home with resin red yoga planter

lightweight, stylish, and the perfect fit for your favorite mid-size flowering plants!
